CALL FOR ABSTRACTS

FSH Society 26th Annual | 2019 | FSHD International Research Congress

June 19-20, 2019
Pharo Palace | Marseille, France

CO-CHAIRS: Fréderique Magdinier, PhD, and George Padberg, MD

PROGRAM COMMITTEE: Alexandra Belayew, PhD, Sabrina Sacconi, MD PhD, Stephen Tapscott, MD PhD, Rabi Tawil, MD, Rossella Tupler, MD PhD, Peter Zammit, PhD

The FSH Society's annual FSHD International Research Congress is the premier annual platform for clinicians, medical researchers, and basic scientists to present and discuss new developments in facioscapulohumeral muscular dystrophy (FSHD).

We invite researchers to submit abstracts in the following areas:
• The FSHD clinical phenotype
• Genetics and molecular findings for genotype-phenotype correlations and genetic diagnostics
• Muscle pathology
• Molecular mechanisms: DUX4, downstream targets, other players
• Molecular mechanisms and animal models
• DNA methylation and Epigenetics
• Natural history
• Therapeutic interventions
• Clinical evaluation, outcome measures, clinical trial readiness

Registration is open to all researchers and clinicians working in FSHD and related fields.

Scholarships are available to cover registration fee and travel stipend (up to $500).

IMPORTANT DEADLINES:
Abstract submission
April 1, 2019

Registration
May 20, 2019
