

FSHD

Adult Research Volunteer Needed

We are looking for family members of FSHD patients, who do not show any symptoms. This research study involves a blood draw.

Eligibility:

1. Age Criteria: 35 years old and older
2. First degree relatives of patients with FSHD who are not manifesting symptoms.

Compensation:

The blood draw, genetic test and shipping will be covered.

Location: You do not need to come to Johns Hopkins Hospital nor Kennedy Krieger for Blood Draw. You can go to any lab near your house.

For more information, please contact: Pegah Dehghan dehghan@kennedykrieger.org

Title: Muscular Dystrophy biomaterials for Wellstone Core.

Principal Investigator: Professor Kathryn Wagner, MD, PHD

Johns Hopkins Hospital
