PARTICIPANTS NEEDED FOR RESEARCH STUDY

The Cardiovascular Research & Rehabilitation laboratory within The Division of Physical Therapy and Rehabilitation Science at the University of Minnesota is conducting a one-time visit research study to compare metabolic rates between individuals with and without facioscapulohumeral muscular dystrophy (FSHD). This study will last one and half hours.

MUST BE:
• Over the age of 18
• Able to participate in moderate physical exercise

MUST NOT:
• Have active cardiovascular or respiratory disorders
• Be pregnant or nursing
